

## How can GroundHog Solutions Enable You to Change the Game?

### Open Pit Production

GPS Fleet Management	Dispatch	High Prec. GPS
Stockpiles & Grade Control	Rosters & Attendance	

### Underground Production

Short Interval Control	Fleet Management	Peer to Peer
QA/QC & Stockpiles	Rosters & Attendance	Data Mule

### Miner Safety

RTLS	CAS
------	-----

### Maintenance

Telemetry	Maintenance Scheduling	P2P Data Mule
Maintenance Inventory	SAP & JDE Integrations	

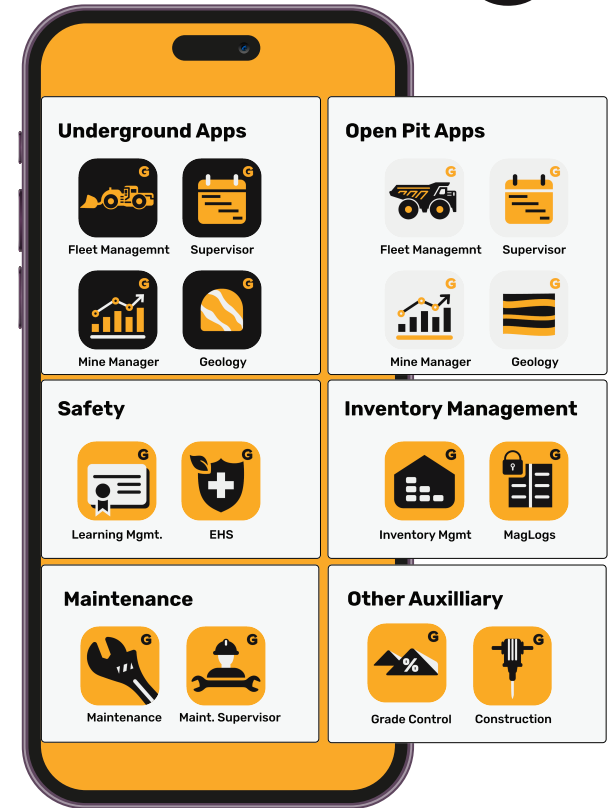

### Inventory Management

Consumables Tracking	MagLogs
----------------------	---------

### Site Safety & Compliance

Learning Management	EHS	SDS
---------------------	-----	-----

## GroundHog Apps (Android/iOS)

## GroundHog Integrations

Unified Platform for Operations, Maintenance, Quality Control, Training Management, Safety and Compliance

**AWESOME PRODUCTS.  
AMAZING CUSTOMER SERVICE.**

GroundHog gave us the real-time visibility we needed to meet our daily, weekly, and monthly targets. Their system is super-easy to setup and use, and they have awesome customer support – always there when we need ‘em.

## Our Story

We believe that inexpensive Android and iPads, BLE and WiFi networks, AI, and an explosion of off-the-shelf products in telemetry systems **has made it easier for mines** of all types and sizes to gather data in ways not possible before. But that data continues to live in silos and is still analysed and reported in spreadsheets. We want to change that.

GroundHog’s comprehensive portfolio of Production Optimisation and Safety solutions **combine software, hardware and cloud** to bring real-time visibility, analytics and AI to mines.

The world’s largest mines use GroundHog to Digitise and Automate Operations and Safety
